

6400 employees

TU Dortmund University is one of the city's biggest employers and a driver for the technological and cultural change of the Rhine region from a coal mining area to a high-tech site and cultural metropolis.

34.000 student population

More than 3.400 global students from over 100 nations contribute to a creative working environment – accounting for 10 per cent of the total.

16 faculties

Our campus university founded in 1968 excels by a special combination of faculties in the natural sciences and engineering, social sciences and humanities. The vibrant structure produces new knowledge, methodologies and technical innovations.

orientation

Our international office is well equipped and offers a variety of services. We provide accommodation, an Intensive German course, free language classes and cultural activities.

ENTERPRISE LOGISTICS

www.lfo.tu-dortmund.de

Univ. Prof. Dr. habil. Michael Henke
and more than 25 scientific employees
within four working fields:

The Chair stands for theoretical and applied research and teachings in both Enterprise Logistics and Supply Chain Management. These two fields address similar and overlapping tasks in production, procurement and logistics that cannot be sharply delineated. We offer 15 lectures spread across the major fields of Logistics Management, Industrial Engineering and Mechanical Engineering.

economy

We cooperate with numerous industry partners and institutes, mainly with the Fraunhofer Institute for Material Flow and Logistics and the Max-Planck Institute of Molecular Physiology.

61 workspaces globally in Europe, South Africa, Brasil, China and Australia

33 ERASMUS partner universities

5 workspaces for final theses in Stellenbosch

34

collaborative agreements

Our global partners include ECE Paris, Dublin Institute of Technology, Bogazici University and Stellenbosch University, Lappeenranta University of Technology und University of Twente

guidance

International students benefit from our mentoring program. A faculty student assists with questions of everyday life, orientation on campus and course selection.

Furthermore, the students also benefit from the mechanical engineering faculty's broad network and get support from TU Dortmund university's international office.
